

UV LIGHT DISINFECTION SYSTEMS

BEAMER

HIGH POWER UV GERMICIDAL LAMP

It's a higher power UV Lamp that sterilizes bacteria and eliminates form aldehyde and odor. UVC irradiation targets the DNA of bacteria, fractures it and prohibits its further reproduction. Its mite removal rate is very high ensuring better safety from disease-causing pathogens. It comes with a child safety lock function that puts the entire system on standby ensuring further safety for its users. Beamer's Remote-Control functionality makes it convenient and absolutely contactless while handling the disinfection process.

PRODUCT FEATURES

- + Available in different wattages
- + 360° clean environment
- + Free movement
- + Intelligent Remote Control
- + Convenient sterilization
- + Child safety lock
- + Targets bacteria DNA
- + High mite removal rate

PRODUCT SPECIFICATIONS

PARAMETERS	INDEX
Power	600 W, 900 W
Voltage	110 - 277 V, 50/60 Hz
Power Factor	> 0.99
Dimensions	19.68 x 15.74 x 61.81 in
Coverage Area	600 W - 2500 sq ft ² (Bactericidal Area), 900 W - 3750 sq ft ² (Bactericidal Area)
Wavelength	254 nm
Radiant Flux	600 W - 40903 uW / sq ft ² , 900 W - 81806 uW / sq ft ²
Air Volume	600 W - 31783 ft ³ , 900 W - 47675 ft ³
Sterilization Efficiency	99.9%
Sterilization Technology	UVC (Ozone optional)
Housing	304 Stainless steel
Peak Wavelength	254 nm
Operating Hours	50000 Hours
UV Radiation Intensity	600 W - 4 μW / sq ft ² , 900 W - 6 μW / sq ft ²
Disinfection Time	Can Be Set As Per Need
Charging Method	AC Current
Antibacterial Rate	99%
Type of Ultraviolet Tube	LVD Tube(Material quartz)
Spectral Wavelength	254 nm
Life	20000 h
Weight	600 W - 88.18 lbs, 900 W - 99.20 lbs
Major Functions	Sterilize and eliminate odors-to kill bacteria and mites
Dimming	Yes
Control	Remote Control
No. of tubes	LVD Tube (20.8 in Height) 2 UV Lights for 600 W LVD Tube (20.8 in Height) 3 UV Lights for 900 W
